

Dear GV Team Member,

We truly appreciate your willingness to come to Egypt and donate your time and effort to help us accomplish the monumental task we face: improving the conditions of those living in poverty housing in Egypt. GV teams, after witnessing the housing need in Egypt, often ask if there are materials they could leave behind to continue the work they've started here. To that end, we've created a Wish List of items that can contribute to further your efforts! Some of the items listed here have been identified as necessary to make our work more efficient and effective by improving communication and creating promotional & educational materials, but are not so essential that we feel comfortable using funds that would otherwise go to our primary task of building houses. Others, such as building materials and tools, are needed to replace those in need of repair or are no longer functional. These items are becoming increasingly urgent and will eventually come out of our budget using money otherwise spent in affiliate communities. A donation of something on this list will allow us to use these funds in our communities instead of on operational necessities. Your generosity of spirit, solidarity and support are the most valuable gifts you bring with you to Egypt. Should you feel led, donating an item from this list will ensure that your good work continues long after you leave us. Thank you!

(Note: Please contact your GV Coordinator at gv@habitategypt.org with any questions regarding donations or specification of items. All donations are tax deductible. Please inform your GV Coordinator prior to your arrival in Cairo if you plan to make an additional financial or material donation so a receipt can be provided.)
